Occupational/Educational Training

Customers can receive occupational/educational training through our Workforce Development Division. Many necessary support services are also available to assist customers with obtaining meaningful employment. Through this program customers can:

- ◆ Upgrade existing occupational skills or acquire new ones.
- ◆ Enroll in educational classes ranging from basic levels to college course work.
- ◆ Train for a new career.

Additional available services include:

Job Readiness Activities (JRA)

Education and training services designed to increase an individual's employability potential, i.e., resume writing, interviewing, completing applications, job search, etc.

Job Development

Outreach efforts to local employers to establish an ongoing relationship and available employment opportunities.

One Stop Partners

Partnership between local entities that link services from employment, unemployment, community colleges and state/county agencies together at one location.

Youth Programs

Preparation of youth for post secondary educational or employment opportunities through year round and summer programs.
